Profile

Dynamic Flutter Developer with a decade of experience in crafting high-quality mobile applications that provide exceptional user experiences. Expertise in leveraging the Flutter framework to deliver scalable solutions while seamlessly integrating third-party libraries and APIs. A proven track record of collaborating with cross-functional teams in Agile environments to ensure timely delivery of innovative features. Committed to maintaining high code quality through effective reviews and best practices, alongside a solid foundation in Java and ASP.NET. Eager to apply skills and creativity to drive impactful projects within the Flutter development landscape.

Employment History

Senior Mobile App Developer (Senior Flutter Developer), Yasmin Al-Sharq Ltd. Co.

May 2026 — Present ● Nasiriyah, Thiqar

- Led Flutter mobile application development end-to-end, owning architecture, delivery, and release quality.
- Established coding standards, code-review workflows, and CI/CD practices across the mobile team.
- Designed scalable, maintainable app architecture and integrated REST APIs and third-party services.
- Mentored developers and collaborated with cross-functional teams to ship features on schedule.

Senior Flutter Developer, Open Code Iraq

Oct 2023 — Present ● Jadiriyah, Baghdad

- Developed high-quality mobile applications using Flutter framework, ensuring optimal performance and user experience.
- Collaborated with cross-functional teams to define, design, and ship new features in a timely manner.
- Conducted code reviews and implemented best practices to maintain code quality.
- Integrated third-party libraries and APIs to enhance application functionality.
- Participated in Agile development processes, contributing to sprint planning and retrospectives.

Flutter Developer, Freelance Developer

Oct 2023 — Present ● Baghdad

Flutter Developer (Part-Time), Akkooo App as Freelance Developer

Jun 2024 — Aug 2024 ● Almansur, Baghdad

Flutter Developer (Full-Time), Solfa App

Jan 2024 — Apr 2024 ● Almansur, Baghdad

Native Android Developer, Freelance Developer

Feb 2019 — Present ● Baghdad

- Collaborated with cross-functional teams to define, design, and ship new features.
- Implemented user-friendly interfaces and optimized application performance.
- Conducted thorough testing and debugging to ensure software reliability.
- Engaged in continuous learning of Flutter to enhance development capabilities.

Projects

Athar Al-Hussein — Islamic Ziyarat App (Flutter)

2025 — Present ● Personal Project

- Built an offline-first Flutter app delivering canonical Shia ziyarat texts for the twelve Imams, sourced from Mafatih al-Jinan and al-Ihtijaj.
- Designed a local JSON data layer with typed Dart models and a repository featuring lazy loading and in-memory caching.

User Interface (UI) Development

Languages

Arabic
English

- Managed state with GetX, implemented full Arabic RTL support, and configured release signing with a custom keystore.

Live TV Streaming App (Flutter)

2024 — 2025 ● Personal Project

- Developed a live TV streaming client using media_kit / media_kit_video for HLS and DASH playback.
- Engineered a Completer-based video-surface readiness sequence to eliminate native mpv startup crashes.
- Implemented M3U / M3U8 playlist parsing and handled TLS edge cases for non-standard streams.

Rasd (rasdai.net/) — Real-time News Platform (Flutter)

2024 — 2025 ● Freelance

- Delivered a real-time news app integrating Firebase (FlutterFire) with a Socket.IO live feed.
- Backed by a NestJS API and Firebase Cloud Messaging for push notifications.

Towers Management — Map-based Tower App (Flutter)

2025 ● Freelance

- Built a map-based application for planning and tracking internet tower installation and network linkage.
- Visualized tower locations and their connections on an interactive map for field and operations teams.

Education

B.Sc. in Biology (Biotechnology) at Al-Mustansiriyah University - College of Science - Biology Dept., 75.291

Oct 2017 — Sep 2021 ● Baghdad, Iraq
